AXIAL FLOW FAN - belt driven

TBE

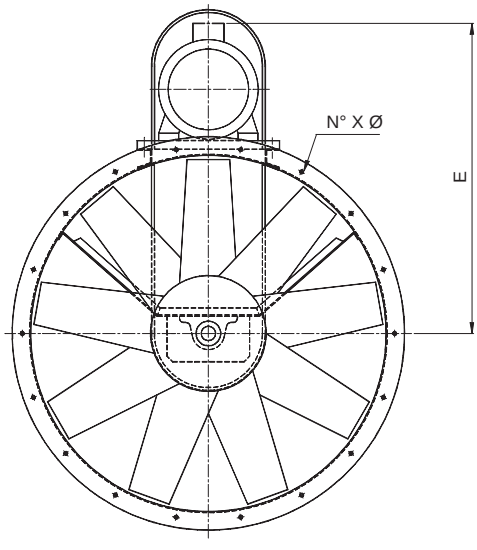
Construction
Belt driven type, double flanged casing, is produced in mild steel or galvanised steel, the impeller having manually adjustable pitch blades is made of PPG, PAG or Aluminium.

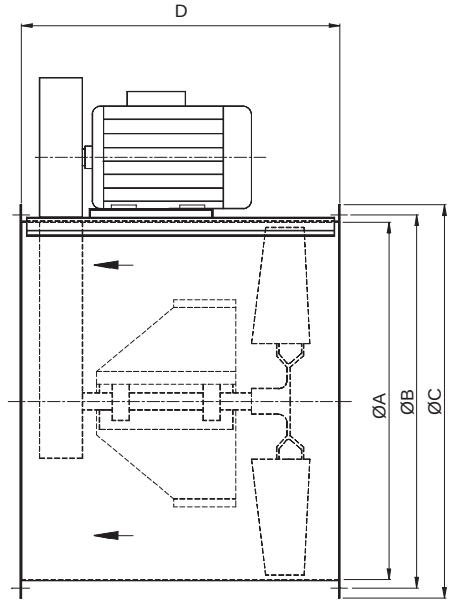
Finish
Painting or galvanised after manufacture are normal finishes on all parts.

Operating Temperature
-20°C to +85°C

Motors
Totally enclosed Class 'F' motor, to a min. IP54 protection are fitted as standard. Standard motor up to 2.2kW are usually supplied on DOL starting, motor 3.0kW and above are star/ delta starting.

Airflow Direction
Air flowing from impeller to motor are fitted as standard. Air flowing from motor to impeller can be supplied on request.





All Dimension in mm.
