Why KRUGER ?

KRUGER has been a leading innovator and manufacturer of residential, commercial and industrial fan application solutions across Asia since 1985. Today with a direct presence in over 18 regions throughout Asia; world class R&D and manufacturing facilities; KRUGER are able to offer their customers unparalleled service and support at a local level. Our customers place their trust in KRUGER.

What is a KRUGER TDA Axial Flow Fan ?

The TDA series is an economical axial fan designed for general clean air and smoke spill applications. It offers a good amount of airflow at medium pressure levels, and its simple, yet durable construction makes installation easy and maintenance minimal.

Why use a KRUGER TDA Axial Flow Fan ?

Simplified Design -> Reliable -> Low Startup Cost

The simple design of TDA fans contributes to their reliability. TDA has fewer complex components that might malfunction, providing cost-effective solutions and resulting to longer service life.

Direct-Driven -> Ease of Maintenance -> Reduced Maintenance Costs

The impeller of the TDA fan is directly attached to the motor shaft, eliminating losses due to drive transmission. This design not only simplifies maintenance but also facilitates part replacement.

Versatile Design -> Easy to Install -> Suitable for Various Ventilation Applications

Suitable for the extract (or supply) of clean, or high temperature airstreams. The manually adjustable pitch angle impeller of TDA fans provides a wide selection and application range, and is easy to adjust during fan commissioning.

Horizontal Floor Mount

Vertical Floor Mount

Horizontal Ceiling Hung

Vertical Ceiling Hung

Third Party Certification -> Guaranteed Performance -> What you see is what you get!

TDA fans undergo rigorous testing and receive certification from reputable third-party organizations, including AMCA and APPLUS. These tests adhere to national and international standards and are carried out in accredited testing facilities.

Air Performance and High Temperature Certification

◀ The quality and reliability of our products and services are recognized by certification bodies and accreditation authorities worldwide.

The TDA series is backed by Third-Party Certification, ensuring life safety through verified air flow performance, smoke, and fire protection.

◀ Kruger Ventilation Industries Asia Co., Ltd certifies that the TDA Series shown herein is licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA publication 211 and AMCA publication 311 and comply with the requirements of the AMCA Certified Ratings Program.

Certified for high-temperature performance (up to 400°C/2Hrs) in accordance with EN12101-3 Standard, by globally renowned third-party testing and certification organizations, APPLUS, and TÜV SÜD.

Class	Temperature (°C)	Minimum functioning period (Minutes)
F ₂₅₀	250	120
F 300	300	60
F ₃₀₀	300	120
F 400	400	120

Summary of key standard TDA Series specifications:

A- Airflow and static pressure performance range up to 396,000 CMH and 1,200 Pa.

B- Airstream operating temperatures

Clean air standard ventilation application -20°C to +55°C.

High temperature smokespill application up to 300°C/2Hrs

C- Tube Casing

All TDA Series fan casings and components are fabricated from galvanized steel (sizes 315-1120) or high-grade carbon steel (sizes 1250-2000). For even more cost-competitive option, "short-casing" version is available upon request.

D- Impeller

Impeller with manually adjustable pitch angle, Impeller blades are made of Aluminum Alloy.

E- Coatings

All casings and components constructed from high-grade carbon steel will be finished with a zinc primer and a durable polyester coating. The polyester coating finish is salt-spray rated for up to 1000 hours, in accordance with the ASTM B117 testing standard. This makes them suitable for use in both indoor and outdoor environments.

F- Trim Balancing

All TDA Series fans undergo 100% trim balancing in every Kruger factory, achieving up to G2.5 balancing grade, compliant with the AMCA 204 Standard, before they are delivered.

G- High Efficiency Kruger Motor

All TDA Series fans are available with a wide range of both 1PH and 3PH (up to IE4) AC motors, including High-Temperature rated and permanent magnet motor options. For more information, please contact your local KRUGER Distributor.

Trim Balancing

Options and Accessories

H- Inlet and outlet duct connection flanges to connect circular duct to TDA flanges

J- Circular flexible duct connectors, both standard and high temperature variations (up to F400).

K- Inlet and outlet safety guards.

L- Backdraft damper

M- Vibration isolator mounts for floor or ceiling mounted installations.

N- Special coatings for specialist corrosion application protection.

P- Spark resistance construction, per AMCA Standard 99.

TDA1000 / 20BH / 4-4 (280)

725 rpm - 50 Hz

KRUGER

- Performance certified for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 4-4 (280)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet $L_{wi}(A)$ sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 4-4 (280)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 6-6 (280)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 6-6 (280)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 6-6 (280)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 6-6 (280)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 8-8 (280)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 8-8 (280)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 8-8 (280)

725 rpm - 50 Hz

KRUGER

- Performance certified for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 8-8 (280)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1000 / 20BH / 8-8 (280)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 14AA / 9-12 (280)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).
 - The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet L_{wi}(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 14AA / 9-12 (280)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).
 - The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet L_{wi}(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of appurtenances (accessories).

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet L_{wi}(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 4-4 (315)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 4-4 (315)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 4-4 (315)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 4-4 (315)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 4-4 (315)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 6-6 (315)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 6-6 (315)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 6-6 (315)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 6-6 (315)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 8-8 (315)

1450 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 8-8 (315)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 8-8 (315)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 8-8 (315)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1120 / 20BI / 8-8 (315)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1250 / 20BJ/ 4-4 (353)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1250 / 20BJ/ 4-4 (353)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet L_{wA} sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1250 / 20BJ/ 4-4 (353)

1150 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1250 / 20BJ/ 4-4 (353)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1250 / 20BJ/ 6-6 (353)

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1400 / 25BK / 8-8 (397)

1150 rpm - 60 Hz

KRUGER

- Performance certified for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1400 / 25BK / 8-8 (397)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 4-4 (450)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 4-4 (450)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lwi(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 4-4 (450)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 6-6 (450)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet L_{wA} sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 6-6 (450)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 6-6 (450)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 8-8 (450)

950 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 8-8 (450)

725 rpm - 50 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 25BL / 8-8 (450)

875 rpm - 60 Hz

KRUGER

- Performance certified is for installation type D - ducted inlet, ducted outlet. Performance ratings do not include the effects of accessories.

- The A-weighted sound ratings shown have been calculated per AMCA International Standard 301. Values shown are for inlet Lw(A) sound power levels for installation type D - ducted inlet, ducted outlet. Ratings include the effects of duct end correction.

TDA1600 / 31BL / 4-4 (450)
